3. The propaganda actions have proven most effective in realizing the PW program. However, this program is only a ~~small~~ ^{small} for what is desired to be done. In other words, propaganda is not ~~really~~ an effective weapon, but only an indication to the anti-communist regime that there is someone routing for them in the West. On the belief of experience during the preceeding year agent operations would be the most effective means in realizing agent operations should be increased. Our capabilities in the forms of apparatus in the satellite countries should be reinforced.
